

COMMENT Docket #N2021-1  
June 7, 2021

The damage that Louis DeJoy has done to our Postal Service continues, and now he wants to institute a plan to demolish this prized American institution. In an effort to destroy our Constitutional agency, Docket #N2021-1 is an assault on our democracy. The effect of his policies has been felt from the late delivery of our mail to the interference in our democratic elections. Seniors who live on Social Security are waiting anxiously to get their next check. Deliveries of prescriptions are slow and sometimes never arrive. Please deny the dangerous changes he is proposing, especially as he is being investigated for crimes. He should not be allowed to influence the direction of the Postal Service and the thousands of hard-working employees who are being blocked from performing their best. Please deny N2021-1 and N2021-2.

Joyce Ardo
